Information

Artwork Orientation

Children's artwork can be created in portrait or landscape orientation. This is up to the child and the art teacher. The following are examples of portrait and landscape orientation.

Landscape

Portrait

Printing the Artwork

Some products look better when using artwork that is created in landscape orientation, while other products look better with portrait orientation. The shape of the item will help you determine how the artwork will look.

When needed, we will rotate artwork or crop parts of it out in order to make it fit the product better. Cropping artwork refers to the cutting off of edges of the image. The product may not show parts of the artwork towards the edges and corners. Most artwork does not need to be altered.

Products with Unusual Shapes

Some products have somewhat unusual shapes. We are more likely to crop, rotate, or skew your artwork, depending on its orientation, with the following products:

- Dog Tags
- Buttons
- Sticky Note Holders
- Checkbook Covers
- Light Switch and Outlet Covers

Personalization

eCustom uses the latest machinery and technology to produce products that require no minimum order. In addition to no minimum orders, we are able to personalize many of the products you see in this catalog.

Personalization Limits

On the products that can be personalized, you can add a phrase up to 15 characters long. This includes spaces and other special characters. eCustom reserves the right to change the font size to better fit the product depending on phrase, artwork, and product.

Products that Can Be Personalized

Look in the catalog for the phrase "Personalize it!" in the product description. The products with that phrase can be personalized. The following is a list of products that can have personalization:

- Pillowcases
- T-Shirts and Sweatshirts
- Calendars
- Dry Erase Boards
- Coffee Mugs
- Aprons
- Tote Bags (no zipper)
- Travel Mugs

Ordering

Write your message or phrase in the squares provided on the order form. Please print clearly. Messages on the order form for products that do not have personalization are ignored.

eCustom Artwork Program

Have Questions? Please contact your coordinator, teacher, or school.
